

THE PRESS.

MONDAY MORNING, MARCH 16.

We do not read anonymous letters and communications. The name and address of the writer are in all cases indispensable, not necessarily for publication but as a guarantee of good faith. We cannot undertake to return or preserve communications that are not used.

ELECTION MONDAY, MARCH 16.

FOR MAYOR,
JOHN H. FOGG.

Keep at work until the polls are closed.

Refracts will be plenty in the Argus this morning. Pay no attention to them.

The time for argument is over; the time for action has arrived.

No Republican can afford to neglect to vote today.

Remember that your vote may decide the election.

Not only vote yourself, but see that your Republican neighbor does likewise.

Deering's promises are good until after election.

The best way to stab prohibition is to vote for John W. Deering.

John H. Fogg is cool and deliberate. John W. Deering always goes off half-cocked.

Deering's business bow has pelted out. It was nothing but a bubble filled with wind.

John H. Fogg will enforce all the laws strictly and impartially.

The author of the 10 o'clock closing order is a nice person for temperance men to vote for.

Temperance men who vote for John W. Deering convict themselves of rank hypocrisy.

John W. Deering will vote every where for all it's worth until the polls close. Republicans must be vigilant.

The strike of 5,000 female cigar makers of Madrid against the introduction of machines in their business is the most unreasonable strike on record.

John H. Fogg has the endorsement of the most prominent business men of Portland. Capt Deering is endorsed by himself and the Argus.

If a Mayor is wanted simply to kick up shindies vote for John W. Deering. If a Mayor is wanted to look out for the interests of the city vote for John H. Fogg.

Don't be deceived by rumors of disaffection among the Democrats. Much as they dislike Deering, they will vote for him, because he heads the ticket.

Deering's administration cost the city \$32,000 more than Mayor Libby's. That shows the kind of a business man Deering is.

It is quite wonderful to behold the number of high minded statesmen who once looked no lower than the cabinet but who now look no higher than a second class post office.

Defeated today John W. Deering will not make his appearance in politics again. Such an opportunity to purify politics is seldom presented. It should be improved.

Voter's early. The Democrats will make the best possible use of the forenoon so as to impress the wavering, and those that seek simply to be on the winning side. Beat them at their own game.

As a result of the electric system at Harvard the students of the medical school have determined to have lectures on homopathy in the face of the refusal of the faculty to permit such "heresy." This is an unlooked for extension of the system.

The animus of the Deering campaign is spite. Mr. Deering's regard for the welfare of the city is his pretense. If it were sincere the first thing he would do would be to take himself out of the field.

Organ means business. Its legislature has submitted a prohibitory amendment to the people, passed a stringent local option law and made the study of the physiological effects of alcohol in the public schools, compulsory.

A rule as applicable to politics as to war is to find out what your adversaries want and then not give it to them. The rum sellers want John W. Deering elected mayor. Temperance men should take the hint.

The Argus has asked over John H. Fogg's record from the day of his birth to now finding a single discreditable feature. No better proof could be had of the uprightness and purity of the man.

The Albany Journal prints a letter from President Cleveland to a photographer of that city asking him to send as soon as possible 200 photographs "such as he made last." This is his "sweetly simple" way of getting rid of the office seekers without offending them.

The style of southern bulldozing undergoes frequent changes. This is the latest, Pensacola, Fla., was so strongly Republican that the Democrats could get control of the city government, so they resorted to the expedient of having the Democratic legislature abolish the city government and allow the Governor to appoint a commission.

Facts to be Remembered.

Let it be remembered that under the boasted economist and business man, John W. Deering, it cost \$380,021.57 to run the city while under Mayor Libby it cost only \$345,150.20, and under Mayor Senter only \$350,683.50—a difference in favor of Mayor Libby of \$32,000 and a difference of \$24,000 in favor of Mayor Senter.

These are facts from the official record which nobody can gainsay.

Do the business men of Portland want any more of the Deering style of economy? We think not.

Some of the Differences.

John H. Fogg is heartily supported by the Republican party which contains the great majority of the most progressive men among our citizens.

John W. Deering is supported gradually by the best elements of the Democratic party, warmly by its worst elements.

Mr. Fogg enjoys the confidence of the business men of Portland as is demonstrated conclusively by the circular published in the PRESS of Saturday. No business man but him, if he offered a word of endorsement of the alleged business qualifications of Mr. Deering which has occupied so large a space in the Argus.

Mr. Fogg has discharged the duties of every position that he has occupied in a manner which has earned for him the commendation of the business community and the approval of the city government and allow the Governor to appoint a commission.

Facts to be Remembered.

Let it be remembered that under the boasted economist and business man, John W. Deering, it cost \$380,021.57 to run the city while under Mayor Libby it cost only \$345,150.20, and under Mayor Senter only \$350,683.50—a difference in favor of Mayor Libby of \$32,000 and a difference of \$24,000 in favor of Mayor Senter.
